Lahore, Pakistan

Skills

- Python Programming
- Machine learning
- Data Analysis
- Data Visualization
- Web development
- MS Office
- Streamlit (Basic)

Language

Urdu

English

Punjabi

Summary

Passionate Artificial Intelligence student currently in 4th semester at Superior University. Skilled in Machine Learning, data analysis, and building real-world projects like house price prediction and file analyzer systems. Eager to apply technical knowledge to solve real-world problems

Education

- Superior University, Lahore** – Bachelor in Artificial Intelligence 2024-2028
 - Currently pursuing undergraduate degree
- Government Associate Collage For Women, Kot Lakhpat, Lahore** 2022-2024
 - Intermediate / ICS
- City District Government Girls High School, Quanchi Amer Sidhu, Lahore** 2020-2022
 - Matriculation

Projects

House Prediction System

- Build using Python & ML
- Data Preprocessing
- Applied regression Model
- <https://github.com/habiba-cyber/Predictions> [Github Link]

Salary Predictions

- Dynamic salary prediction using Linear Regression.
- Handles categorical inputs with one-hot encoding.
- Maintains training data structure for accurate results.
- User-friendly web interface with dropdowns.
- <https://github.com/habiba-cyber/Salary-Prediction-Final-Project> [Github Link]

File Analyzer

- File Handling & Data Analysis
- CSV Processing
- Basic visualization
